

INSPECTOR QUALIFICATIONS

Treon, et al. v. Dryvit Systems, Inc.,
Beaufort County Court of Common Pleas
Civil Action No. 2002-CP-07-1377

For purposes of the Inspections contemplated by the Settlement Agreement, inspectors shall have the following qualifications:

1. Have attended EIFS installation and application training by an EIFS manufacturer, distributor or a qualified third party.
2. At least 3 years experience in the EIFS industry working for a manufacturer, distributor, applicator, architecture or engineering firm, or third party inspector in a field capacity.
3. Training on use of moisture meters by a qualified third party inspector, a manufacturer's engineering or technical department or a meter manufacturer or distributor.
4. Training on the Inspection Protocol by Settling Defendant's engineering department or by a qualified third party inspector designated by Settling Defendant.
